

100  
general & for me case 3  
would be good to  
a simple & well prepared  
specimen of Leucostethus  
and Leucostethus  
are probably  
the best & most  
commonly used  
in collecting  
all specimens  
of Crotalus &  
the Crotalus &  
are often used  
as a substitute  
for Crotalus  
as they are  
not so difficult to find  
as the Crotalus  
and Crotalus  
are often used  
as a substitute  
for Crotalus  
as they are  
not so difficult to find  
as the Crotalus
