

• ~~Wetzel's Pigeonings~~
• ~~Maple, a bird that is not
• ever breeding or hatching.~~

(Anno 1810) Planes & trees
are now tall, & get tall
the ground is much more
dry & the soil less & less.
There are 3 species of trees
Quercus coccinea & c. rubra
and Quercus alba, which
is also greenish.
The oak wood is still
green & the leaves
are still green & the trees
are still young & the
leaves are still green &
the ground is still
green & the trees
are still young & the
leaves are still green &
