This is a copy of a document from the library of the University of Salamanca, Spain. The text is a historical record, likely a charter or a decree, written in Spanish. It mentions 'Ponce Justicia' and 'Justicia', which could refer to a specific official or a title. The document is dated '15 de Mayo de 1492', which is a significant date in Spanish history, marking the end of the Reconquista. The text is written in a cursive script and is somewhat difficult to read due to its age and the style of the handwriting.
