

225.1.24. *S*ummarized history of changes with respect
 to *intensity* during ~~last~~ ^{most} 12 days from *start* of
 series ~~and~~ until *present*. *Values* of *changes* at *beginning* of
series are ~~not~~ *available* so *changes* of *intensity* *are* *estimated*
from *values* of *intensity* *at* *beginning* *of* *series* *and* *at* *end*
of *series*. *Changes* of *intensity* *occurring* *during* *series* *are* *estimated*
from *change* *in* *intensity* *between* *beginning* *and* *end* *of*
series *divided* *by* *number* *of* *days* *in* *series*. *Estimated*
values *of* *intensity* *are* *summed* *over* *series* *to* *get* *total* *intensity*
for *series*.
