

10 44
The first part of the book is a history of the
country from the first settlement to the present
time. It is written in a plain and simple style
and is very interesting and useful. The second
part is a description of the country and its
resources. It is written in a more detailed
and scientific style and is very valuable
for the student of natural history. The third
part is a collection of specimens of the
country's plants and animals. It is written
in a very simple and plain style and is
very useful for the student of natural
history. The fourth part is a collection of
specimens of the country's minerals. It is
written in a very simple and plain style
and is very useful for the student of
natural history. The fifth part is a
collection of specimens of the country's
fossils. It is written in a very simple
and plain style and is very useful for
the student of natural history.
