~~Dear Mr. [unclear]~~ Joseph Oregon  
The general summary is as follows  
of all species observed I find the following  
the following names being those of  
the insectivorous birds which were found  
in the country in which the observations  
were made. The following is a list of  
birds which were observed in the country  
and also other birds seen which  
are known to be found in the same  
country. The following is a list of  
birds which were seen in the country  
and also other birds seen which  
are known to be found in the same  
country. The following is a list of  
birds which were seen in the country
