

The first of these is the  
 fact that the population  
 of the world is increasing  
 at a rapid rate. This is  
 due to a number of factors,  
 including improved medical  
 care, increased food supply,  
 and a general increase in  
 living standards. The result  
 is that the world is becoming  
 more crowded, and this has  
 led to a number of problems,  
 including pollution, resource  
 depletion, and social unrest.
