

28

The first part of the book is devoted to a description of the
 various species of plants which are found in the
 country. The author has been very particular in
 his descriptions, and has given many interesting
 details of their habits and properties. The second
 part of the book is a history of the country, and
 contains a great deal of valuable information
 respecting its ancient and modern state. The
 author has been very diligent in his researches,
 and has collected a great number of curious
 anecdotes and traditions. The third part of the
 book is a description of the manners and customs
 of the people, and contains many interesting
 particulars of their lives and habits. The fourth
 part of the book is a description of the climate
 and seasons, and contains many interesting
 particulars of the weather and the winds. The
 fifth part of the book is a description of the
 minerals and metals, and contains many interesting
 particulars of their qualities and uses. The sixth
 part of the book is a description of the animals
 and birds, and contains many interesting
 particulars of their habits and properties. The
 seventh part of the book is a description of the
 fishes and shells, and contains many interesting
 particulars of their habits and properties. The
 eighth part of the book is a description of the
 insects and reptiles, and contains many interesting
 particulars of their habits and properties. The
 ninth part of the book is a description of the
 plants and trees, and contains many interesting
 particulars of their habits and properties. The
 tenth part of the book is a description of the
 minerals and metals, and contains many interesting
 particulars of their qualities and uses.
