Concordia et concordia
in concordia et concordia

25. November 1902

Dear Mr. and Mrs. Ladd,
I am sending you a copy of the
newspaper clipping from the
Daily News of New Haven, Conn.,
of Nov. 22, 1902, which contains
a full account of the
discovery of the fossilized
remains of a large animal
which I have described as
a "prehistoric elephant."
The author of the article,
Mr. W. E. Ritter, has
written me that he has
had the skull of the animal
in his possession for
several years, and that
he has been unable to
determine its exact
affinity. He has
therefore sent it to
the Peabody Museum
for examination, and
will be glad to receive
any information
concerning it.
Very truly yours,
John C. Merriam.
