

SELLO QVARTO, DIEZ MARAVIL  
DIS, AÑO DEMIL Y SEISCIEN  
Y QVARENTAY OCHO.

the first time I have seen it. It is a very  
handsome bird, with a long crest, and  
is about the size of a pheasant. It  
has a black head and neck, with a  
white patch on each side of the  
neck. The body is brown, with  
white spots on the wings and tail.  
The legs are long and strong,  
and the feet are large and powerful.  
The beak is strong and pointed,  
and is used for digging up roots  
and insects. The bird is very  
active and alert, and is always  
on the lookout for food. It is  
a very interesting and beautiful  
creature, and I am sure you will  
enjoy seeing it.
