During the second of November Don
Gordon sold a silver plate tray

~~Land und die Meere der Provinz Sachsen~~

W. J. C. 1868

A close-up view of a piece of paper that has suffered significant damage. The paper is heavily stained with dark brown and black substances, possibly water damage or mold. It is also heavily discolored, appearing yellowish-brown and almost black in some areas. The texture of the paper is visible, showing signs of wear and deterioration.

Octopus *zilopes*

وَلِلَّهِ الْحَمْدُ

A close-up photograph of a fossilized skull of a small theropod dinosaur, possibly a coelophysid. The image shows the anterior part of the skull, including the premaxilla, maxilla, and a portion of the dentary. The teeth are visible as sharp, recurved points. The bone is a light tan color with darker, more weathered areas.

On the 20th. with
the 21st. we were
