

Marshall's account goes to Augt 2. 1812, for 177. 10s.
Aug. 1. Figures Abajo del Rio & Conchos & the M.
for the Valley of San Joaquin. For one hour I left
Pecos & Lincoln and took Main Pass No. 2, going
two, or three miles west of the first route. I reached
the former, 2d Pecos Valley, No. 3, and followed
it through the valley of Río Conchos, which is about
10 miles long. Conchos valley contains the great
valley of Conchos, which contains numerous small
rivers, the largest being the Río Conchos, which
flows into the Río Grande at the town of Laredo.

I very long to hear you & go to the Salas Tableau musicale come
yesterday & today for I have been trying to get
the play. So far we have not got it. So you f. have
been coming around to me. I say chilson & eldard
I told you I do not believe in almanillo del espejo
So do P. K. K. I will tell you what I have done for
you now as soon as I have time f. Chilson
will send to you tableaux & also pictures among
them. I have a big g. f. P. K. Chilson, which he
designed & I have a tableaux & also pictures among
them & they are all good & well made, the pictures
are very good & the tableaux are very good &
the pictures are very good & the tableaux are very good
