

...the first form of his friends before him, so as to give an
idea of his character. One of the most common
accents is the one which has the following
order. The first note is a half note, followed by
a quarter note, and a third note of the same
length. This is called the "one-and-a-half" style.
The first note is a half note, followed by
a quarter note, and a third note of the same
