I am writing to you about the things that I have seen and heard  
 in the city of London. I have seen many things that are  
 very strange and wonderful. I have seen many people who  
 are very rich and powerful. I have seen many people who  
 are very poor and miserable. I have seen many things that  
 are very beautiful and interesting. I have seen many things  
 that are very sad and terrible. I have seen many things  
 that are very good and wonderful. I have seen many things  
 that are very bad and terrible. I have seen many things  
 that are very interesting and wonderful. I have seen many  
 things that are very sad and terrible. I have seen many  
 things that are very good and wonderful. I have seen many  
 things that are very bad and terrible. I have seen many  
 things that are very interesting and wonderful. I have seen  
 many things that are very sad and terrible. I have seen  
 many things that are very good and wonderful. I have seen  
 many things that are very bad and terrible. I have seen  
 many things that are very interesting and wonderful. I have  
 seen many things that are very sad and terrible. I have  
 seen many things that are very good and wonderful. I have  
 seen many things that are very bad and terrible. I have  
 seen many things that are very interesting and wonderful.

I have seen many things that are very sad and terrible. I  
 have seen many things that are very good and wonderful. I  
 have seen many things that are very bad and terrible. I  
 have seen many things that are very interesting and wonderful.
