

The first of these is the
 fact that the people of
 the North are not
 generally as well
 educated as the
 people of the South.
 This is due to the
 fact that the North
 has a higher standard
 of living than the
 South. The people of
 the North are more
 interested in education
 and in the progress of
 the country. The people
 of the South are more
 interested in the
 preservation of the
 old ways of life.
